Tangshan Huida Ceramic (Group) Co., Ltd. was set up in 1982. Our company's staff has realized the leap-type development of the enterprise by carrying out Huida's spirit of "creating, trying to be the first, being practical and doing the best to the job". At present, the company has been provided with a total asset of 900 million yuan with the staff number being 8500, the gas tunnel kiln production lines being 14 and the annual output of 7.5 million pieces of ceramics for the toilet. The production scale takes the lead of the same trade in the whole country. Facing the severe market competition, our company insists on striving for the powerful enterprise by the quality and making all efforts for developing the two markets, and gradually set up the perfect quality assurance system and the powerful marketing network. Our company firstly realizes the aim of making the products of only first grade in the same trade of the whole country, and our company has passed ISO9001 quality system

authentication and the product authentication of GB/T6952-1999. We have set up 33 direct sale centers in China, and our products have been sold well in every big city of the whole country. We have grasped the opportunity of joining in WTO by our country, tried our best to develop the international market and successively passed SAI authentication in Australia, CSA authentication in Canada, UPC authentication in USA, KS authentication in Korea and PSB authentication in Singapore. The water used for the save water type bedpan every time is 6 liters, and the product has passed the authentication as the water-saving bedpan in the whole China. All the products of dual flushing water-saving water tank parts, toilet covers, bathtubs, shower rooms and metal parts, etc. are designed and made by our own company. Our company also makes 500,000 square meters of polished ceramic tiles, 3 million square meters of quality inner tiles and floor tiles. Our company has become the only one production enterprise of the products for forming the complete sets used in the toilet. Our company has been providing the quality products for forming the complete sets and the quality post-sale services. Our company has the import and export right by ourselves, and we make great efforts to develop the international market with the exporting value being increased by lead type. Our products have been exported to about 80 countries and regions, such as USA, Korea and Russia, etc. In recent years, our company has closely seized the opportunity of China's joining in WTO, enrolled more foreign trade personnel and set up more organs, raised the propaganda strength at home and aboard, strengthened the management within the enterprise, raised the service level, consolidated the relationship with the old customers and developed new customers. The exporting tendency is getting better and better. In 2004, our company has fulfilled the annual export value of US\$55 million with the exporting value being the first place in the same trade of the whole country and in Tangshan City. Our company has been continuously named as "the advanced enterprise of province level", and has won "the quality management prize of Hebei Province" and the prize of advanced enterprise of good efficiency in the whole country. Our group has firstly won the prize of the enterprise of "Good Reputation and Credible Strength Enterprise" among the 520 enterprises. The brand of "Huida" was named as the only Well-known Trademark of China in the toilet ceramic industry in the whole country. Huida ceramics have been named as the top brand products in China by Chinese famous brand strategy promotion committee. Our products have been granted as inspection free products.

The director and general manager of our company, Mr wang huiwen has been named as the excellent enterpriser in the whole country, is selected as the people's representative in the 9th People's Congress of Hebei Province, won the prize of "May First" labor medal in the whole country, and he is now the deputy director of the Chinese toilet ceramics association and the deputy director of China's Construction Material Industrial Association.
